A PROFESSIONAL DENTAL CORPORATION FAMILY DENTISTRY

Patient Responsibility

According to industry standards, our billing department will file your claims for all applicable dental and medical services and appliances rendered to you by our physicians. As a courtesy to our patients, this office will also send claims, letters, x-rays, and any other necessary information to your insurance carrier for the reimbursement of those charges.

As your insurance policy is a contract made between you and your insurance carrier, you, the patient, are responsible for monitoring the use of your policy's benefits and for remaining within your yearly maximum covered benefit allowances. If you require dental treatment, we will compose a treatment plan for you. Any and all pricing and figures are derived from percentages that have been provided to our staff by your insurance carrier and is only an estimate of your out of pocket cost.

A member of our staff will call your insurance carrier to obtain your benefit's information, however, that information is not always accurate If your insurance carrier places any financial responsibility to you, you will be responsible for your bill. We make every effort to know how your insurance carrier will cover your care during your visit with our office, however, often the benefits information we receive from insurance carriers is not accurate. It is your responsibility to call your insurance carrier before receiving treatment with this office to insure we are a provider for your insurance plan, and to learn for yourself how you will be covered for your visit.

In all cases, if your insurance carrier fails to reimburse our physician's for their services, then you, the patient, are responsible for those charges.

Estimated percentages and patient portions your insurance company does not cover for your treatment are to be collected by our staff on the day of service. If your insurance company does not pay the entire estimated insurance portion, you will be responsible for the difference. Once you have reached your maximum insurance benefit amount allowed and there are still other procedures or treatment to be complete, then any cost accumulated will be your responsibility.

By signing this document, I understand that insurance estimates are not a guarantee of payment. Nor is it a guarantee that services rendered are to be covered by my dental/medical insurance provider. Any balance left unpaid by my insurance carrier becomes my responsibility.
